

### FROSTYLAND

**Environment:** Land that's covered in a thin layer of ice. It's very cold, but there is water

**Food source:** Plants that grow under the ice, fish in the water

**Predators:** Ferocious wolves that can run fast but can't swim

### MISTY JUNGLE

**Environment:** A jungle with tall trees. It is hot and very foggy so it's hard to see far away

**Food source:** Fruit on top of very tall trees, insects that live in the trunk of trees

**Predators:** Monkeys that live on top the trees but can't see very well

### FOREVER NIGHT DESERT

**Environment:** It's always dark, the sun doesn't rise, but it is still very hot all the time. There is not much except sand and cactus plants and rodent holes

**Food source:** Nectar from flowers that grow on cactus plants, insects that live on the flowers, mice that burrow in the sand

**Predators:** Large birds that can see in the dark and come out when other animals are sleeping

### DOWNPOUR RAINFOREST

**Environment:** It is always raining here. The forest floor is covered with water. There are lots of trees and vines

**Food source:** Plants that grow in the water

**Predators:** Giant snakes that slither under the water and can hear very well and feel vibrations in the water

### TWIN ISLANDS

**Environment:** There are two islands in the middle of the ocean with lots of tropical trees and sandy beaches

**Food source:** Coconuts, crabs

**Predators:** Alligators that are slow swimmers but can be found in the water between the islands or on the beach

### CORAL REEF

**Environment:** Underwater, on a colourful coral reef in shallow water

**Food source:** Fish, but some are poisonous! The ones that have spikes on their bodies are safe, the ones with no spikes are poisonous

**Predators:** Sea turtles that eat slow-moving animals
